BROKER:
MR. JOSIAH MULLENS, 131, Pitt-street.

The property which it is proposed to work under the above title is a twenty-acre lease, situated on Johnston Hill, Kings River, about a mile from Gundagai.

An immense reef of conglomerate quartz and sandstone with slate capping, and well-defined granite walls, run through the entire length of the property (610 yards).

The width of the reef is from twenty-eight feet six inches

to fourteen feet. Two shafts have been sunk on the road one of twenty-six feet deep at the north end, proving it to be twenty-eight feet six inches wide; and the other at the south end, twenty feet deep, and twenty-four feet fourteen feet wide, (distance between the two shafts five hundred yards), the stone showing good throughout. The crushings taken from these shafts varied from eight and a-half dwits, to 10 cts. The last lot crushed (40 tons) went 12 dwits, to the ton; but as the only machine is three miles distant, and of no great power, the proprietors have been obliged to offer a portion of the property to the public in order to save the expense of from fifteen to twenty head of stampers on the ground.

To this end application has been made for a machine

site, on a creek about a quarter of a mile from the reef with a good road on a descending gradient. This site is the most desirable for the quarry, as it has the lowest rate cost.

It is estimated that about \$5000 will be ample for purchasing the land of a large battery of twenty head of animals, with engine sheds and all other appliances complete, for working the reef at the rate of two hundred tons per week. It is estimated that the cost of the quarrying will be \$1000 on the ground, there will be an immediate yield of \$1000, and the balance of \$4000 will be the cost of the quarrying, and the working can be quarried at the cost of less than four shillings per ton.

The present indications lead the proprietors to believe that the supply of stone is almost without limit, and good bearing throughout.

The Company being formed, it is possible that the services of Mr. William Woolnough, who has been for many years resident in the neighbourhood, and who has been engaged in the quarrying, may be obtained for the local management.

[illegible]

Applications addressed to Mr. J. MULLENS, 131, Pitt street, must be accompanied by a deposit of 2s. 6d. per share, and this money will be returned without deduction should the Company not be formed.

APPLICATION.

To Mr. Josiah Mullens.

Broker for the Great Southern Gold Mining Company
 (limited).
 Sir,—I hereby request that you will allot me
 Shares in the above Company, and now enclose 2s
 per share as deposit; and I hereby undertake to accept
 the above shares, or any portion thereof that may be allotted
 to me.
 Dated this day of 1872.

THE GREAT SOUTHERN GOLD MINING COMPANY (Limited).

In answer to numerous inquiries with reference to the above, the public are informed that only 100 shares of 2s 6d per share will, for the present, be required and that the remaining 750, which it is believed will be sufficient for all purposes, will be called up in small instalments, and at long intervals, as wanted for the purchase and erection of machinery—at least one month's notice being given of each call.

J. MULLENS,
Broker to the Company.

**THE AUREOUS QUARTZ MINING CO.
RED HILL, TAMBARORA.**

This Company is formed to work 6 acres of high

surface land adjoining the Red Hill Company celebrated claim.

For prospectus, circular, and plan, apply to the
Mining Development Company,
Vickers Chambers, 111-street.

P R O S P E C T U
of the
SURFACE HILL GOLD MINING COMPANY
(Limited), Wattle Flat.

To be registered under the Limited Liability Act.

Capital, £2000, in 10,000 shares of 10s each, half
which and £200 each, are reserved to the proprietors to
be paid up.

This Company is formed for the purpose of working 10-acre lease, held by the proprietors - E. Grace and partner - situated on the celebrated SURFACE HILL, Watlington.

A considerable amount of work has been done, and a large quantity of mine raised, all showing gold. The tunnel running into the hill 75 feet, where the reef shows from 3 to 5 feet wide, and some mine from it has started from 2 to 3 oz. of gold to the ton.

The only reason for offering this valuable property for sale is the inability of the proprietors to purchase suitable crushing machinery for themselves.

Immediately after the erection of machinery it is confidently anticipated that a large dividend will be declared.

The promoters would direct attention to the fact, that this is no speculation, but a certainty, being on a well defined reef 5 to 4 feet wide, thickly impregnated with gold.

profits with the fully paid up shares of the original proprietors. Application for shares to be made to C. BA and C.O., Brokers, 165, Pitt-street, Sydney, where applications may be seen, and from whom prospectuses and information may be obtained.

PROSPECTUS OF THE AJAX QUARTZ GOLD MINING COMPANY, (LIMITED).

TAMBARORA PROPER.

Capital £2000, in 1000 Shares of £2 each. Ten shillings per share considered as paid up. £200 cash (for work done) and 250 shares fully paid up, representing the promoters, as on application, and as required, the remainder in calls of 1s per share as and when required, giving one month's notice.

The property consists of three acres, situated at Tambarora Proper, on the West of the Ajax Quartz Gold Mining Company, and on a parallel line to the Hawkins Hill vein. There is a shaft down 25 feet, 10 tons of quartz have been raised, and now on grass. Assays from the Mine, 3 oz. 6 dwts. 8 grs. to the ton, and the quartz increasing in richness. There are two veins now opened out on the surface, one from which we have been raising quartz; the other, which has lately been struck, runs yards from the present shaft, is only some two feet, is well defined, and has every indication of a gold-bearing reef. It is anticipated that only the first call will be required, as it is expected to strike the reef in the shaft itself, so that payable quartz can be raised at once.

There is a crushing-machine within a short distance, so that the quartz can be crushed at a trifling expense. Spectators can be seen at the office of Mr. J. G. COHEN, Sharebroker, Wynyard-lane.

FORM OF APPLICATION.
I hereby certify that I will allot me shares in the "Ajax Quartz Gold Mining Company," and now receive 10 shares, and as required, the remainder in calls of 1s per share as and when required, giving one month's notice.

Day of 1872.

PROSPECTUS OF THE "MIDLOTHIAN" QUARTZ MINING COMPANY, ROBINSON CRUSOE LINE OF REEF, HILL END.

To be registered under the Limited Liability.

Capital—£6000, in 6000 Shares of £1 each. 2000 fully paid up Shares retained by the present Proprietors.

It is proposed to form a Company of Eighty Promoters' Shares of 25s each, which will entitle each Promoter to Fifty Shares, twenty of which being fully paid up to £5 each, and Twenty-five being Contributing Shares, subject to calls of One Shilling per Share per month.

The ground belonging to the present proprietors, and which is now proposed to be put on the market, is a Five-acre Lease, situated on the line of reef known as the "Robinson Crusoe" line, and is a very rich gold-bearing reef, and is a depth of 30 feet, and they are upon rich gold-bearing strata.

The Manager of the "Golden Chain Quartz Mining Company" reports that stone thickly impregnated with gold is now being raised.

Surface stone from the "Robinson Crusoe" claim gave, from a crushing of 35 cwt., a return of a little over 4 cwt. This claim is about to be extensively worked by means of a tunnel, which is fast progressing. In cutting the platform for this tunnel, large quantities of gold-bearing strata will necessarily pass through the case of the Midlothian.

Good surface stone has been found from the whole of the line of reef equal to that raised from the "Robinson Crusoe" claim, and a machine is now in course of erection near the "Robinson Crusoe" claim, and a second crushing battery in readiness below the "Robinson Crusoe" claim, and a machine is now in course of erection near the "Robinson Crusoe" claim, and a second crushing battery in readiness below the "Robinson Crusoe" claim.

The present proprietors are taking a number of prominent shares, and for further information and all particulars, apply to

ALEX. SCOTT FLINDERS, Mining Broker, 186, Pitt-street.

MARE'S NEST GOLD MINING COMPANY (LIMITED).

CAPITAL, £2000.

In 5000 shares of £1 each, of which the proprietors retain 100 paid-up shares, and reserve £200 from first contributed capital. Remaining £200 shares are offered to the public on the following terms—25d per share on application, 2s 6d per share on allotment, balance in monthly calls as required. Shares will be allotted in order of application.

The ground proposed to be worked by this Company is a six-acre lease taken up by Messrs. Robinson and Co., and is situated between the "Robinson Crusoe" and "Robinson Crusoe" claims, and is a very rich gold-bearing reef, and is a depth of 30 feet, and they are upon rich gold-bearing strata.

Of the various leases along this line of reef, the Hawkins Hill vein, situated on the West of the Ajax Quartz Gold Mining Company, is the richest, and is a very rich gold-bearing reef, and is a depth of 30 feet, and they are upon rich gold-bearing strata.

The present proprietors are taking a number of prominent shares, and for further information and all particulars, apply to

ALEX. SCOTT FLINDERS, Mining Broker, 186, Pitt-street.

PROSPECTUS OF THE "PANDORA QUARTZ MINING COMPANY."

(Continuation Hawkins Hill.)

Capital, £12,000, in 12,000 shares. 4000 reserved for Proprietors, remainder paid up, 4000 cash; 7400 shares for public, at 1s each, on application, 2s on allotment, the remainder in calls of 1s per month if required.

PROVINCIAL DIRECTORS:
The Proprietor has determined to bring this Company before the public in such an easy manner, as to meet the circumstances of every one.

The property consists of Ten Acres, on the south side of the "Queen of the Ranges" reef, and is a very rich gold-bearing reef, and is a depth of 30 feet, and they are upon rich gold-bearing strata.

This claim is well known to the people of Hill End. A copy of the "Queen of the Ranges" reef, and is a very rich gold-bearing reef, and is a depth of 30 feet, and they are upon rich gold-bearing strata.

The Company proposes to work this land by tunnel, which will cut through all the gold-bearing veins which there will be on the surface, and to a crushing-machine, which will be used to crush the quartz, and to a machine, which will be used to crush the quartz, and to a machine, which will be used to crush the quartz.

The proprietors have very confidence in bringing this Company before the public, as a bona fide speculation, being long employed on the ground driving a tunnel.

No call will be made for a period of three months. Spectators can be seen at the Exchange, both from the line and also from the "Queen of the Ranges" claim.

Application for further information may be made to JOHN G. COHEN, Sharebroker, Wynyard-lane.

AUSTRALIAN INSURANCE COMPANY

PAID UP CAPITAL £100,000. Reserve Fund £100,000. The Sydney Branch allows INTEREST on annual deposits as follows—

For two months certain at the rate of 2 per cent. per annum
For three months certain at the rate of 2 1/2 per cent. per annum
For six months certain at the rate of 3 per cent. per annum
For twelve months certain at the rate of 3 1/2 per cent. per annum

ADDITIONAL DISCOUNT on approved Trade Bills, not having more than 60 days to run at the rate of 5 per cent. per annum.

ON CASH CREDITS AND SECURED OVERDRAWN ACCOUNTS, interest at the rate of 6 per cent. per annum, according to agreement.

Sydney, 26th February, 1872. J. MURRAY, Manager.

HARRISON, JONES, AND DEVILIN, STOCK AND STATION AGENTS,

SALE YARDS—Pillagers, Homebush, and Sydney. OFFICES—Bull-chambers, Pitt-street, Sydney.

CARRINGTON AND BEARD'S CLAIM, HAWKINS HILL.

The proposed Company to work the above not having been formed within the agreed time by the brokers, the proprietors have now taken it into their own hands, and propose to place it on the market at

£20,000.

As £1000 out of this will be placed to the credit of the Company to carry on operations with, the owners may safely affirm that on this claim the claim will be the cheapest one yet offered.

The undersigned Gentlemen have consented to act as Trustees to protect the interests of intending Shareholders.

J. PAXTON S. DICKINSON.
As Messrs. CARRINGTON AND BEARD are entitled to all the Quartz taken out of the claim until the purchase money is paid into the Bank, intending Shareholders will consult their interest by placing the Share List as soon as possible.

The claim is now raising splendid stone, and has got about 100 feet of rich veins to sink on before coming to the level where the enormously rich reef was last month in "Paxton and Holmes' reef," when about 2 tons of quartz gave nearly 4000 ounces of gold.

Telegram of 6th March says—
"Carrington and Beard's claim looking first-rate; getting stone as rich as ever. Hickson's quartz, 100 tons, net claim, went over 5 ounces to the ton."

A second account, opened at the Joint Stock Bank, in the name of the Trustees, and intending shareholders will please pay in the full amount of £1 per share. SHARES WILL BE ALLOTTED AS PAID FOR.

PARLIAMENTARY ELECTIONS.

TO THE ELECTORS OF THE WESTERN GOLD-FIELDS.—GENTLEMEN.—A deputation of miners from the Western Gold-Fields having called upon me for the purpose of asking me to allow myself to be nominated as a candidate for the representation of the Western Gold-Fields in Parliament, I am now in a position to state that, while feeling highly honored by their request, it was impossible for me to visit the electors at present, in consequence of the pressure of numerous professional engagements, which have kept me in court for the last fourteen days till 8 and 10 o'clock at night; but, that as my public character and my name to the public are well known, and that I have the honor to nominate and return me, I would devote my whole energies to the most arduous duty of my trust and best interests.

I also received a numerous signed requisition from another section of the Western Gold-Fields electors, which I returned a similar reply. And now that, I understand, I have been nominated, I take the earliest opportunity of addressing the electors to inform them of a few of the reasons which have prevented me from visiting them, and of the reasons which have induced me to accept of the nomination, and to state that I have the honor to nominate and return me, I would devote my whole energies to the most arduous duty of my trust and best interests.

I introduced a bill to curtail the power of the magistracy to prohibit the holding of public meetings, and to limit the term of imprisonment to six months. I carried this bill through Parliament in the teeth of great opposition. Before I succeeded in passing the bill, the Justice of the Peace could inflict a punishment of two years' imprisonment on any one who was found guilty of holding a public meeting, and I succeeded in passing the bill, and I carried it through Parliament in the teeth of great opposition.

I introduced a bill to curtail the power of the magistracy to prohibit the holding of public meetings, and to limit the term of imprisonment to six months. I carried this bill through Parliament in the teeth of great opposition. Before I succeeded in passing the bill, the Justice of the Peace could inflict a punishment of two years' imprisonment on any one who was found guilty of holding a public meeting, and I succeeded in passing the bill, and I carried it through Parliament in the teeth of great opposition.

TELEGRAPHIC DESPATCHES.

AUSTRALIAN ASSOCIATED PRESS TELEGRAMS.

GOULBURN.

THE GOULBURN ELECTION.—The polling resulted as follows:—

Mr. Teese	372
Mr. Alexander	170

BRAIDWOOD.

The Braidwood Election.—The polling to-day resulted as follows:—

Braidwood	293
Manar	27
Eberington	21
Rendal	33
Managrove	115
Aratuen	400

TERARA.

The Shoshaven Election.—All the returns are in but one, and that is important. They give a majority for Warden of 105.

BATHURST.

Latest betting for the Cup.—5 to 2 v. Paradise, 4 to 1 v. Surbiton, and 5 to 1 each v. Vauban and Redevore. For the Maiden Plate, 2 to 1 in favour of the latter.

ORANGE.

Orange Election.—The following is the result of the polling:—

Mr. Nelson	404
Mr. Goss	136

WELLINGTON.

Rich specimens were brought to town yesterday from a newly-discovered reef, situated about five miles north-east from Wellington. The vein is about one foot thick, and though a few miles distant, is supposed to be a continuation of Mitchell's Creek. Six block claims and three leases are already taken up.

GRENFELL.

A large influential and orderly election meeting was held to-night at the Princess Theatre. About three hundred electors were present. Excepting about a dozen, the meeting was unanimously in favour of the late member (Mr. James Watson). Several gentlemen addressed the meeting on behalf of Mr. J. W. Watson, and explained that his absence was unavoidable. The meeting resolved itself into a committee to secure Mr. Watson's re-election.

WEST MAITLAND.

West Maitland Election.—The official declaration of the poll for West Maitland was made to-day. The result of the election is—Mr. Lee, 504; Mr. Eckford, 267; and Mr. Hamilton, 93.

NARRABRI.

A large and influential meeting was held last night at Cousen's Hotel, for the purpose of inducing Mr. A. Goldman to contest the Gwydir. Mr. D. Fraser, of Cooma, in the chair. Various resolutions were passed, and a largely signed requisition read; after which, a deputation of nearly 100 people waited upon Mr. Goldman at his private residence, and the chairman on their behalf presented him with the requisition, and hoped he would respond to it. Mr. Goldman replied, thanking the gentlemen for the honour they sought to confer upon him. He did not in any way aspire to it, and would rather decline; but the meeting refused to accept his answer, and determined to bring him forward. At length he stated that if the electors persisted, and thought he could worthily represent them, he would place himself in their hands. At the termination of his address, Mr. Goldman was seated in a chair and carried to Cousen's Hotel amidst vociferous cheering. A large demonstration has never been held in Narrabri.

TENTERFIELD.

The Tenterfield Election.—The nomination for Tenterfield district took place to-day, at noon. Dr. C. A. Fraser was proposed by Mr. Alderman Wheat, and seconded by Mr. R. Laird. Mr. R. P. Abbott was proposed by Mr. J. T. Haydon, and seconded by Mr. Matthew Merrell. The show of hands was in favour of Dr. Fraser.

GRAFTON.

The Grafton Election.—Owing to the late heavy rains many have been prevented from voting to-day, and it is believed that no poll has been taken at the Tweed, as it is a fortnight since last mail communication. There has been great interest manifested in the election in town. The returns, as far as known, are:—

Grafton	368
Madgwick	94
Cadmo	28
Ullmar	60
M'Lean	90

CARDWELL.

The steamship Tinnoc, which left here in search of the missing men wrecked in the Marna, has visited the wreck three times inside the Bramble Reef. The masts of the brig are standing, and the tops are out or water at low tide. Nothing was seen of the missing men. The Tinnoc is leaving again to-day for a further search.

MELBOURNE.

Pure Lincoln rams, at the Barrow Park sale, realized from £10 to £112. Several houses were destroyed at East Collingwood yesterday evening. They are insured in the Queen, Sydney, and in the Imperial, Victoria. Mr. Vogel has submitted modified proposals in reference to the mail service.

There has been an attempted murder and suicide at Sandridge, in the case of a husband and wife. Mr. Vogel has concluded negotiations with the Associated Press on behalf of the New Zealand Government, to supply to them telegrams they distribute to the Press.

A handsome testimonial for presentation to Captain Gifford is in view.

A tragic event took place this afternoon in the Treasury Gardens. Edward Finney and Charles

Mark, discharged workmen from the Hospital, and the principals. Shots were fired, and Marks found expiring; he had received nine wounds from the pistol brandish. Finney states that Marks attempted to shoot him, and then shot himself. He has been arrested.

English trout, 7-lb. weight, caught in Victorian waters, are now being exhibited.

There are no signs yet of the dismantled vessel sighted yesterday, and a steamer has been sent in search.

At auction, 5000 mats of Java and Bourbon sugars have been sold—Java at £31 10s. to £31 15s.; low countries, £31 5s. to £32; Bourbon, casks, £23 and upwards. Rice, £19 10s. to £20. Kerosene is 9½d.

QUEENSLIFF.

ARRIVED.—Adeline Burke, barque, from Newcastle.

ADELAIDE.

ARRIVED.—Adeline Burke, barque, from Newcastle.

NEW SOUTH WALES ACADEMY OF ART.

SECOND NOTICE.

That eminent Victorian artist, Chester Barlow, has sent to the Exhibition a very charming original painting in oils, which has been universally admired. It is called "L'Allegre"—Cheerfulness—personified as a young Italian-looking girl of sweet station, looking straight at you, with a soft smile, and a thoughtful air. The delicate hands are raised, near the golden face, in an easy and graceful attitude, and are exquisitely painted. It is just one of those faces that haunt the memory; not less lovely than it is full of mind. It is the only picture which Mr. Barlow has forwarded to the Exhibition. It appears on the catalogue as No. 1.

Mr. William Hargre, of Melbourne, sends four large pictures:—(No. 7) Hagar and Ishmael, (No. 8) Gipsies, (No. 9) an Australian Farmyard, and (No. 10) a River Scene.

Mr. Stannard, of New Zealand, sends (No. 11) The Fishermen, a very fine picture, and (No. 12) The Fishermen, a very fine picture, and (No. 13) The Fishermen, a very fine picture.

Mr. Stannard, of New Zealand, sends (No. 11) The Fishermen, a very fine picture, and (No. 12) The Fishermen, a very fine picture, and (No. 13) The Fishermen, a very fine picture.

Mr. Stannard, of New Zealand, sends (No. 11) The Fishermen, a very fine picture, and (No. 12) The Fishermen, a very fine picture, and (No. 13) The Fishermen, a very fine picture.

Mr. Stannard, of New Zealand, sends (No. 11) The Fishermen, a very fine picture, and (No. 12) The Fishermen, a very fine picture, and (No. 13) The Fishermen, a very fine picture.

Mr. Stannard, of New Zealand, sends (No. 11) The Fishermen, a very fine picture, and (No. 12) The Fishermen, a very fine picture, and (No. 13) The Fishermen, a very fine picture.

he advised to extend a free pardon to any accomplice, and he said the person who actually committed the act, who shall first give such required information.

ASSASSIN—250 HAWKINS.—Whereas on the morning of the 14th ultimo, a large woodshed at Glastonbury, near Armadale, the property of Messrs. Danger Brothers, was destroyed by fire; And whereas at an inquest held on the 16th ult., before the District Court, at Glastonbury, the woodshed was wilfully set on fire by some person or persons unknown; And whereas it is hereby given, that a reward of fifty pounds will be paid by Government (in addition to the reward of one hundred pounds offered by Messrs. Danger Brothers) for such information as will lead to the apprehension and conviction of the guilty person or persons. In addition to the above reward, the Executive Administrator of the Government will be advised to extend a free pardon to any accomplice, not being the person who actually committed the act, who shall first give such required information.

BIRTHS, DEATHS, AND MARRIAGES.—Mr. John M. Antill has been appointed Acting-Registrar of Births, Deaths, and Marriages for the district of Pictou, during the temporary absence on leave of Mr. W. E. Antill, District Registrar—appointment to bear date from 7th inst.

HILL END.

FROM OUR CORRESPONDENT.

MARCH 2.—A considerable amount of misapprehension has been created in the minds of the public, both on the matter of the mine and the gold-bearing rocks that have made it what it is. I propose to dispel the public mind by a short account of the mine and the gold-bearing rocks that have made it what it is. I propose to dispel the public mind by a short account of the mine and the gold-bearing rocks that have made it what it is. RANDOM NOTES BY A WANDERING REPORTER.

THE SHALE AND OIL COMPANY.

SINCE the amalgamation of the Western Kerosene Company and the Hartley Kerosene Company, under the title of the Shale and Oil Company, so many alterations have been made in the works, and so much additional vigour has been infused into the management, that public attention has been called to what is now doing, though descriptions of the works have previously appeared in our columns. In the interval which has elapsed, however, since those articles were written, the improvements in the mode of obtaining the coal, and in the method of running and refining the oil have been so varied that the description of two years ago will hardly apply to the present time.

Taking passage by the 5 o'clock mail train, the siding of the company, which joins the Great Western Railway line, about three miles beyond Mount Victoria, is reached a little before 10 o'clock. The moon is in the second quarter, but as the sky is overclouded, very little benefit is obtained from its light. The line of tramway leading to the mines is, however, sufficiently well defined under foot, and as there has been no rain of any consequence, my companion and myself may tread boldly without the fear of puddles lying in ambush along the edge of the sleepers, or in the holes worn by horses' hoofs. The road is pleasant enough to travel, and we catch sight of sombre masses of rock rising up on the one hand, black and undulating, and only noticeable from the sharp bold line which it presents to the eye, without the fear of puddles lying in ambush along the edge of the sleepers, or in the holes worn by horses' hoofs. The road is pleasant enough to travel, and we catch sight of sombre masses of rock rising up on the one hand, black and undulating, and only noticeable from the sharp bold line which it presents to the eye, without the fear of puddles lying in ambush along the edge of the sleepers, or in the holes worn by horses' hoofs.
